Abolish the feather duster. Use a cloth—wipe away the dust. Do you know what you are doing when you fling away dust? In every human being there are many grains of gold. When one is down even by indigestion of his own, do not stop to throw additional mud upon him. Strive rather to reach him a helping hand, to extricate him from the mire in which he is wallowing. This is true manhood.

How rarely do we accurately weigh that we have to sacrifice against what we have to gain.

I have been very much benefited by a 50-cent bottle of Elie's Cream Balm. When I began using it my stomach was so bad I had headache the whole time and discharged a large amount of filthy matter. That has almost entirely disappeared and I have not had headache since to amount to anything. Please send me two more bottles. J. M. H. SUMMERS, Stepien, Conn. 50 3/4

Heartiness and twinkling in the throat are best relieved by the gargle of the white of an egg, beaten to froth, in half a glass of warm sweetened water.

"Oh, my back!" is a common exclamation and expresses a world of misery and suffering. It is singular that pain arises from such various causes. Kidney disease, liver complaint, wasting affections, colds, rheumatism, dyspepsia, over work and nervous debility are chief causes. When thus ailing seek prompt relief. It can be found best in Brown's Iron Bitters. It builds up from the foundation by making the blood rich and pure. Leading physicians and ministers use and recommend it. It has cured many, and if you are a sufferer try it.

"No, papa," she said, "I do not wish to marry yet. What I want is a man who does not drink, smoke, chew, snuff, go out at night, gamble, over-eat, etc. In short, a man with no vices, and one who is always good. 'My daughter,' said Mr. Dusenberry, 'you are but a stranger here, heaven is your home.'"

**Home.**

Oh! what a blessing a happy home is, whether a grand mansion or a lowly cottage. The good laboring man, after his day's work is done, hastens home, the thought of the loved ones gladdens his heart, lightens his labor and he is greeted by kind words and loving smiles.

**Precautions to use Against Small-Pox.**

To THE LOCAL BOARDS OF HEALTH AND PEOPLE OF THE STATE OF KENTUCKY:

The State Board of Health desires to call earnest attention to the fact that Small-Pox, in a severe and fatal form, is now prevailing in some sections of our own State, and in cities of adjoining States, as intimately connected with us by the lines of travel as to constant introduction of the disease. Unusual precautions are taken by our city, town and county health authorities to prevent such importation and the spread of this disease, the experience of last winter is likely to be repeated on a much larger scale.

This Board, therefore, feels it to be its duty to warn the people that decisive action should be taken to prevent the State from this loathsome malady. Fortunately the method of prevention is as certain in its action as it is cheap and easy to obtain. Vaccination and re-vaccination, properly done with reliable virus, is a certain prevention, and is entirely free from danger. This is the conclusion of the scientific world, after full investigation and large experience, and may be thoroughly relied upon.

Notwithstanding this safe, cheap and perfect protection is within the reach of all, it is estimated that nearly one-third of the people of this State have never availed themselves of it. It is hoped that the next Legislature will make vaccination compulsory, but intelligent persons should not wait for the law to force them to an evident duty. No one should allow himself, or any one for whom he is responsible, to remain unvaccinated at any time, and especially in the face of the present danger. Health and school boards, everywhere should co-operate in requiring vaccination as a condition of admission to all schools, public and private, and the proprietors of manufacturing and railroad should make the same requirement of their employees. The operation should always be done by a competent physician, at three points in the same arm, and the person vaccinated should be seen by him from time to time that he may know that a perfect result has been secured. A perfect vaccination can only give rise to a false and often fatal sense of security.

As a further precaution, the various health boards of the State, county and municipal, are requested to perfect their organizations, take every precaution to prevent the importation of the disease into the communities over which they have control, or, failing in this, be ready to stamp it out by strictly isolating the first case, and vaccinating and re-vaccinating every person endangered by it. It would be well for health boards in localities not provided with hospitals to have in view some suitable cottage which could be used as a hospital in case of emergency. All carpets, cushions, stuffed furniture, clothing, and other articles not required for immediate use should be removed from rooms intended for use of persons affected with small-pox, and no person except the physician, nurse, or parent should be allowed to enter or go near the house, or touch any article used therein, until after thorough disinfection. The funerals of all persons dying of this disease should be strictly private. The same precaution should be observed in the management of scarlet fever, measles, diphtheria and other infectious diseases.

By the promptness and efficiency of several of the county boards the disease was effectively controlled in many localities last year. In other counties no such precautions were taken at the outset, and the disease was only checked after serious loss of life, great inconvenience with business, from the paucity of the epidemic of this disease, and an expenditure of money, which, if judiciously used in systematic vaccination, beforehand, would have given perfect immunity to every citizen in the community. Here, as in many other things, an ounce of prevention is not only better but cheaper than a pound of cure.

In this, and all other matters pertaining to the public health, the State Board holds itself in readiness to assist the local boards to the full extent of its powers; and all physicians of the State are requested to promptly notify this office, as well as their local boards, of the first outbreak of this or any other contagious disease in their respective communities.

By order of the Board, HOWLAND GREEN, KY., November, 1881. J. N. McCORMACK, Secretary, State Board of Health of Kentucky.

**The State Press on Tom Henry**

"It was no Caesar laid him low," "Twas some commoner's cunning stroke the blow." Tom Henry, Clerk of the Court of Appeals, has been playing the devil's game. This is a very mild name for his conduct as detailed in a special to the Courier-Journal by its Frankfort correspondent, and which we reproduce fairly unchanged in a word from the headwaters of Bitter creek, and don't you forget it. When it comes to taking "cocktails" and "smashes" he is a Kentucky Sullivan. In six weeks he has knocked out of three distilleries and many number of saloons, and now he has deserted his office and gone off to the mountains to find more and "newer" red liquor to conquer.—Glasgow Times.

**A TRADING OFFICER.**

By reference to a Mr. Sterling dispatch, in another column of this issue, it will be seen that Capt. T. J. Henry, Clerk of the Appellate Court, is again the victim of drunkenness and report. This is a very mild name for his conduct as detailed in a special to the Courier-Journal by its Frankfort correspondent, and which we reproduce fairly unchanged in a word from the headwaters of Bitter creek, and don't you forget it. **RICK HIM HOUT.**

Tom Henry, the drunken individual who was elected Clerk of the Court of Appeals, has turned out just as we predicted, although we, in common with many thousands others, were willing to give him a chance after his confession of sin and an apparently earnest promise that he would thoroughly reform. From the statement, published elsewhere in this issue, it will be seen that after a sluggish debauch of weeks he has been punished off by his dispatches to go home and stay there at \$150 per month. There is no law permitting a man to sell his office in that manner, and Henry having disgraced both himself and the party that honored him, ought to resign at once or be forced to do so. As strong as the Democrat party is it cannot carry such a load as Henry, and it should not weaken itself by trying to do so. Let Henry, therefore, go by all means if possible, else kick him out.—Laborer Journal.

**HE SHOULD IMPROVE IT.**

A ugly story comes from Frankfort that Capt. Tom Henry, Clerk of the Court of Appeals, has been in a "blitz" owl for weeks, and his friends at that place, becoming thoroughly disgusted with him, shipped him to his mountain home. But this is not all. It is said that he has entered into a contract by which he is to receive \$150 per month for the remainder of his term on condition that he is to stay away from the office, while his clerks will do the work and pocket the profits.—Georgetown Times.

**DISGRACED HIMSELF.**

Tom Henry, Clerk of the Court of Appeals, has again disgraced himself and brought reproach upon the party that elected him by getting heavily drunk and taking a spectacle of himself. He has been drunk for weeks, and after having visited Louisville and repeated his former exploits there, has finally gone to the mountains to end off. It is said he has made an agreement with Gaines and Boone to run the office for his fees and perquisites, they to pay him \$150 a month. Henry ought to be impeached. His conduct is lacerable.—Middletown Times.

**PUT HIM IN AN ASYLUM.**

Thomas J. Henry, the Clerk of the Court of Appeals, is an habitual drunkard, and his inability to attend from his drunkenness have made it necessary for him to leave every thing to his deputies and keep himself away from the office. So says the Yeoman. His friends should take charge of him and put him in an inebriate asylum, or in a lunatic asylum, for an habitual drunkard is to all intents and purposes a lunatic, and is just as fit a subject for restraint and treatment as any other human being who has lost the power of self-control. If the case of Clerk Henry should induce the Legislature to open our asylums for the recovery of inebriates, or to establish an inebriate asylum, then he will have served a patriotic purpose far more than if he had performed all the clerical duties of his office. Provision should be made by the State for just such cases as this, and it would save hundreds of men, and their families from poverty and all manner of sufferings.—Lexington Gazette.

**TOM HENRY MUST GO.**

Tom Henry, Clerk of the Court of Appeals by the grace of a large number of over-zealous and misguided Democrats of Kentucky, has been on a rising high drunk and brought his office into disgrace. It seems from the report of the Frankfort correspondent of the Courier-Journal, that he has been on a six weeks' continuous debauch, a part of which time he spent in Louisville, where he "howled" in his hours of his debauch, leaving his affairs in the hands of his deputies, with the understanding that he would receive a stipend of \$150 per month for the rest of the term, nearly seven years. If this is true the matter should be looked into by the Court of Appeals, or the proper authorities, and severely set down upon. Instead of being permitted to retire on a comfortable salary, while he does the work of the office, he should be kicked out in disgrace. We voted for Tom Henry on his plea of penitence and promise of reform, but this is a little more than we can stand. To a Henry must go.—Richmond Times.

**HIS REMOVAL SHOULD BE VOTED.**

Tom Henry has been on a protracted debauch and has retired to his mountain home. It is to be hoped, to wrestle with remorse and to stay. He has forfeited all claim to confidence, and his retirement from the place should be speedy and arranged with a view to permanency. He asked to be given a chance to display his manliness in reform. It was generously granted him and he has seen fit to squander it in his drunken mire. If he persists in assuming his place after he "slores up," legal processes looking to his forced removal should be invoked.—Bowling Green Gazette.

In Capt. Henry's address to the Democratic State Central Committee, that distinguished moral court which once wrestled with his appetite for two days and nights, he used these remarkable words:

"I promise, that helping me, never to touch another drop of liquor as long as I live."

We must come to the conclusion that Providence has not extended to Capt. Henry the strong and unwavering support that the people of Kentucky gave him. But there should be some hesitation in punishing Capt. Henry for this. Indeed we should pause lest the precedent should undermine the Court of Appeals, if not several other departments of State Government. For it is not a created fact that Providence has refused to ratify some other pledges of nominees who have been elected in Kentucky.—Louisville Commercial.
